- **Frameworks & Libraries:** React, Bootstrap
- **Tools & Platforms:** Git, Visual Studio Code, npm, CI/CD pipelines
- **Other Skills:** Agile Methodologies, Knowledge of security principles and practices, familiarity with monitoring tools
- **Containers and Orchestration:** Docker, Kubernetes

WORK EXPERIENCE

Cigna HealthCare Madrid – Intake Care Representative | July 2022 – October 2023

I was a member of the Clinical Operations team and worked closely together with the Operations team. My main responsibility was to prepare and send Guarantee of Payment letters to our members and clients. This involved international Preauthorization.

- **Analyse claims** and coverage requests
- Use of **SalesForce, HealthCloud and Mainframe**
- **Coordinating work flow** and meet deadlines

hiSbe Food Brighton – Assistant Store Manager | November 2018 – September 2021

As an assistant Store Manager at HISBE Food I was naturally responsible to assure that customers feel welcomed in the store and the day is organised efficiently.

- **Hiring and training new employees**
- Maintaining and **evaluating contact with farms and suppliers**
- Structuring the day, including **planning daily and weekly tasks**

PROJECTS

Personal Portfolio Website

- Developed a fully responsive portfolio website using HTML and CSS.
- Added dynamic behaviour to my webpage using JavaScript.
- Gained great understanding of media queries and flexbox design.

Travel Website

- Developed and deployed my travel website.
- Gained solid understanding of the foundational elements of web development, including the structure provided by HTML, the styling capabilities of CSS, and the interactive features enabled by JavaScript.

Health App

- Developed my own doctor appointment booking website using React JS.
- Implemented user authentication and authorization with form validation.
- Created and manipulated DOM.
- Web Storage APIs: Experienced in storing and managing client-side data, ensuring data persistence across page reloads and browser sessions.
